

NODA News

MISSION STATEMENT

To establish and maintain a cohesive organization that serves its membership by promoting the art, science and professionalism of dentistry, and by communicating the value of oral health to the community.

VOL. 49 SEPTEMBER '11 NO. 07

NODA IS MODERNIZING

by Laurie F. Moeller, D.D.S. - NODA President

Your NODA Board has continued to raise the bar to attain the goals that we've set for our organization. I am pleased to announce that we have hired a new employee, Ms. Eugenie Vulevich. She is enthusiastically assisting both Andrew Hale and Normalee Ward with their duties for NODA/NODC. Not only is our office expanding in personnel, we have also expanded in size with the addition of space adjacent to our current location. This will allow continued improvement of our efficiency and the quality of service that we provide in our daily operations.

New Orleans Dental Enterprises has purchased a new server for NODA to keep up with our expanding technology needs. The server will enhance security and improve storage and retrieval of documents. Many thanks to Drs. Unland, Bourg and Giacona for their thorough analysis of our information needs and for selecting the company to provide and maintain this vital service.

And more news from the New Orleans Dental Enterprises! The First Data Corporation contract has been renewed and the processing fee has been fixed for the next 3 years. First Data is one of the largest processor of credit,

debit and checks so this is especially helpful in these tough economic times. Dr. Darrell Bourg and his committee have worked diligently to provide the best possible products to our members. This not only benefits our membership but also our local dental association. Please give your support to all of our Preferred Providers.

Plans are shaping up nicely for the next New Orleans Dental Conference/LDA Annual Session, April 12 - 14, 2012. Dr. Gerry Chiche will return to share his newest techniques for creating life like ceramic restorations. Look for announcements soon regarding the program which will have presentations on a wide variety of topics.

And please remember to RSVP for our monthly General Membership meetings. We must have an accurate count of attendees so that adequate food can be prepared for everyone. Dr. George Arch has scheduled an outstanding CE Program for this fall. We hope that you enjoy the program and the fellowship that makes our New Orleans Dental Association an organization that we can all be proud of.

Sabey Joins Endodontics Faculty

Kent A. Sabey, D.D.S., has been appointed assistant professor in the Department of Endodontics at LSUSD. He will serve as program director for the advanced education program, supervising the nine residents in the program. His appointment was announced by Dr. Van Himel, chairman of the department.

Dr. Sabey received his Bachelor of Science degree in 1979 from the University of Arizona in Tucson. Three years later, he was

awarded a DDS degree from the University of the Pacific School of Dentistry in San Francisco. He had a private dental practice in Tucson, Arizona, from 1982 to 1990, after which he began serving in the US Air Force (USAF). In 1999, he completed a two-year advanced education in general dentistry residency at Wilford Hall Medical Center located at Lackland Air Force Base in San Antonio.

In 2006, Dr. Sabey completed a second residency at Wilford Hall, this time in endodontics. He was then appointed assistant professor of endodontics at USAF Postgraduate Dental School, where he taught for over four years,

overseeing 20 residents.

Dr. Sabey has received board certification by the Federal Services Board of General Dentistry, the American Board of General Dentistry and the American Board of Endodontics.

During his 21-year military career, he also practiced at MacDill USAF Base and Hurlburt Field, both in Florida, as well as Kadena Air Base in Okinawa, Japan. Since 2007, he has worked with the American Board of General Dentistry in creating and teaching the endodontic portion of its annual review course.

“I only have one regret about selling my practice. I should have called Dr. Earl Douglas sooner.”

Sound Advice.

Approval of House Bill 628

by Henry Gremillion, D.D.S., M.A.G.D.-LSUDS Dean

June 30, 2011

Leadership &
Members
New Orleans
Dental Association

Louisiana House Bill 628 was passed and signed into law on June 23, 2011. The bill authorizes the LSU Board of Supervisors to increase tuition and fee amounts for the LSU Health Sciences Center - New Orleans Schools of Medicine and Dentistry and the LSU Health Sciences Center - Shreveport School of Medicine. It was originally filed by Representative Walt Leger.

The efforts of the dental community, both individuals and groups, assisted in helping to pass this important bill. I am grateful as its impact on the dental school is significant. The additional funds will help to offset some of our recent budget reductions and further enhance our mission of education, research and patient care.

Again, thank you for your support. Without the commitment of the dental community, our efforts would certainly be diminished.

I Switched To LAMMICO

*Mark D. Anderson, D.D.S.
Family Dentistry, New Orleans
Policyholder since 2005*

"When I first started my dental practice, my malpractice insurance was through a nationally known carrier. But it was difficult getting through to someone to help me when I needed them.

Then I discovered LAMMICO, a local company that understands the needs of its dentists. When I have a question, I know I can rely on LAMMICO representatives to find the answer right away.

Now I can concentrate on what's most important to me —my patients. I'm glad I made the switch to LAMMICO."

What's new at the LSUSD Library?

Don't forget that the dental school library is your resource for professional information. Come to the library to learn what's new in dentistry by browsing through our extensive collection of books and electronic or print journal articles. You can check out books, search the PubMed (MEDLINE) database with the assistance of a librarian, or print copies of electronic articles for only 8 cents per page.

As for what's old in dentistry, we now have additional artifacts from the history of dentistry in our exhibit cases. You'll find antique dental equipment collected by Drs. Peter Fortier, Harold Wirth, and Sidney

Neuwirth, plus items recovered from the once flourishing C. Edmund Kells Museum at Tulane, recently donated by Dr. Al Huguet.

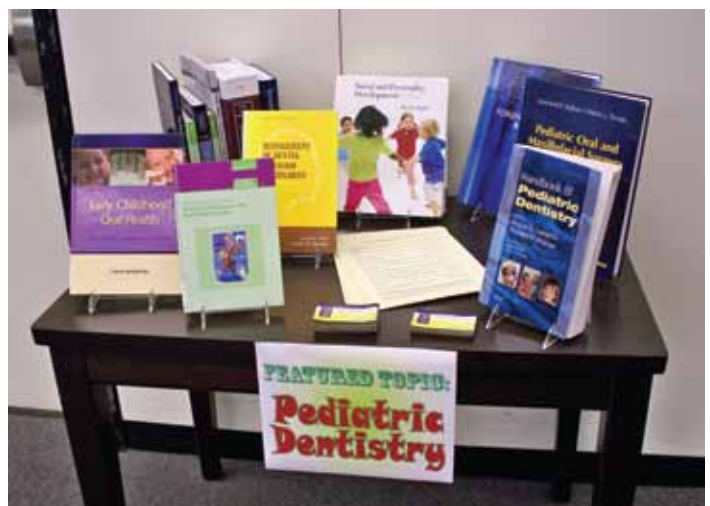

For more information about the library, go to our website www.lsusd.lsuhsu.edu/libr or call us at 504/941-8158. All LSUSD alumni and dental professionals licensed in Louisiana are eligible to check out books and all dental professionals are welcomed to take advantage of our other services. To request delivery of journal articles, you'll need to register for Loansome Doc and order articles via PubMed. For more details on all of our services, please contact us via email or phone.

2011 SCHOLARSHIP RECIPIENTS NAMED

Funds to be used by Louisiana students entering medical school across state

Kathleen M. Adley (right) receives the LAMMICO 2011 Dental School Scholarship from Chammy Allen, Account Manager with the company.

For the eleventh consecutive year, four in-state students will continue their higher education in the medical field; thanks to recent merit awards from the Louisiana Medical Mutual Insurance Company.

“We feel our scholarship program helps to retain students who will soon have the opportunity to become excellent contributors to our state’s health care system,” said Thomas H. Grimstad, M.D., LAMMICO’s President / Chief Executive Officer.

The unique LAMMICO program assists recent college graduates with the cost of attending medical school. Since 2000 - 2001, LAMMICO has awarded merit scholarships to medical students for their first year enrollment at all of Louisiana’s medical schools. Including this year’s class, a total of 44 incoming freshmen medical students have used the funds to help defray tuition and other expenses at Louisiana medical and dental schools. Eligible students for a LAMMICO merit scholarships are

incoming freshmen from Louisiana. Students who receive the award do so for one year. The following institutions award the scholarships based upon merit criteria established at each medical school:

LSU School of Dentistry - New Orleans: Kathleen M. Adley of Lafayette graduated summa cum laude from LSU-Baton Rouge, where she majored in biological sciences. While in college, she worked as a teaching assistant in a microbiology lab and volunteered at Cancer Services of Greater Baton Rouge. Her career goal is to practice in Pediatric Dentistry.

Founded in 1968, LSU has graduated over 4,000 dental health care professionals. Currently, 75 percent of dentists practicing in Louisiana have graduated from LSU.

About LAMMICO

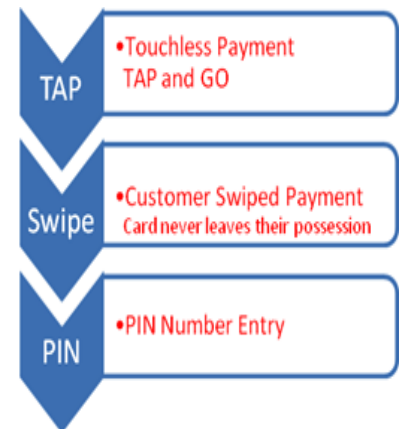

LAMMICO provides health care practitioners unparalleled service and affordable medical professional liability insurance. LAMMICO is a Louisiana-based company, owned by its policyholders. Since 1981, LAMMICO has been the only physician-owned company specializing in medical professional liability insurance products and services for Louisiana physicians.

For more information about the company, please access www.lammico.com.

MS Bike Tour: Louisiana Dental Riders

By Raymond J. Unland, Jr., D.D.S – NODA Treasurer

The number of people living with multiple sclerosis increases every hour of every day. This

astonishing rate is not going to diminish, nor will it stop, until we've found a cure. Research has made some incredible advances recently, but the world can still only offer disease management drugs and therapies to the 400,000 people living with MS in America.

We've formed team Louisiana Dental Riders for the MS Bike Tour because we know that riding 150 miles is nowhere near as difficult as confronting a lifetime with multiple sclerosis. The National Multiple Sclerosis Society

gives us all reason to hope. In addition to supporting novel research projects around the globe, they also provide much needed education, programs, and services to everyone who is affected by MS - including the diagnosed, their friends and families, and the healthcare professionals who work with them.

Louisiana Dental Riders currently consists of Louisiana dentists, dental students, and friends. We want you! Join our team as a cyclist or a volunteer! Make a donation online! Send in a check! Talk to your employer about becoming a sponsor of the MS Bike Tour! There are so many ways to make a difference in the fight against MS, and it all begins right here.

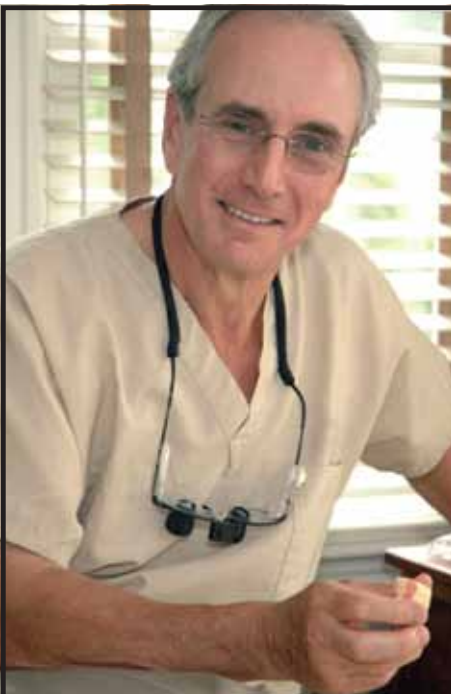

Follow this link for details: <http://main.nationalmssociety.org/s>

[ite/TR/Bike/LAMBikeEvents?pg=entry&fr_id=16602](http://main.nationalmssociety.org/site/TR/Bike/LAMBikeEvents?pg=entry&fr_id=16602).

Team: "Louisiana Dental Riders." Interested? Contact Ray Unland at rayinno@yahoo.com or cell: 504/430-3185.

You can also support us by making a tax-deductible donation to MS Bike at the team web site: http://main.nationalmssociety.org/site/TR?team_id=261040&fr_id=16602&pg=team.

Ritchie Reith

Dear Colleagues:

I want to take this opportunity to ask you to consider joining the 300+ volunteer dentists in Louisiana who participate in Donated Dental Services (DDS), a project of Dental Lifeline Network.

The program is so easy to do.

- You see patients in your own office, on your own schedule where you are most efficient.
- You review the patient profile in advance and decide who you want to see. You are free to accept or decline any patient
- There is no paperwork to complete
- The program is designed to treat the patient to completion: initial exam to final phase 2 treatment. You determine your own treatment plan.
- There are no lab fees – lab work is provided.
- Specialists participate in the program so there is no need to treat beyond what you feel comfortable in doing.
- Patients are reliable, and very grateful for what you do.

The Donated Dental Services (DDS) program helps patients like Mr. H, a 50 year old Jefferson Parish resident who is blind, developmentally delayed. Almost two years ago, Mr. H was stabbed in his right eye during a robbery. Although the thief was caught, the accident left Mr. H almost completely blind. He must live with his mother who helps care for him. He recently began attending the lighthouse for the Blind and is able to do simple chores around the house with supervision. Mr. H has neglected dental issues, but could not afford the expensive treatment he needed. He and his mother survive on her retirement benefit, his Social Security Insurance and food stamps, all of which just cover their monthly bills. Two generous DDS volunteers came to his aid. A general dentist extracted four teeth, restored two other teeth and donated a lower partial denture. A volunteer lab fabricated the denture at no charge. This kind team provided \$2487 in care to restore Mr. H's smile. He wrote a note to express his true appreciation for this gift:

"You will never imagine how much this meant to me. The gift of being able to chew and digest my food is like a new life. I also appreciate the gift to smile. LA Donated Dental Services is a blessing to citizens who cannot afford dental care. This is a much needed service in Louisiana. Thanks again for the wonderful group of people who provided me with the excellent professional care."

Thank you for your consideration in this humanitarian effort. Your participation makes a huge difference in the lives of our clients, and is something we can point to with pride. I've found this project to be very rewarding and I think you will also. And if you ever have any questions about the program, please call me personally.

To volunteer: go to <http://www.nfdh.org/volunteer-for-dds/volunteer-now-dentist>
Email me at: rayinno@yahoo.com
Call Lori Scott at: 504-940-5200 (outside NO: 800-946-5700)

Sincerely,

LADPAC RAFFLE DRAWING DATE CHANGED

Since most components were not meeting before the scheduled September 16, 2011 drawing date, the date to draw the winning tickets for the LADPAC raffle has been changed to October 21, 2011 in conjunction with the Last Chance Seminar. **The prizes are \$500, \$250, and \$100. Tickets are \$25 each, and the winner need not be present.**

The money LADPAC raises is very helpful in persuading legislators to consider and hopefully support issues of importance to the dental community.

This is an excellent opportunity for anyone who was unable to, or didn't make a contribution to support LADPAC, and you might even win something. People who have contributed are also welcome to take a chance.

In recent years, NODA members support for LADPAC has been perceived to be weaker than would be expected from the state's largest component. This is an excellent opportunity to change that perception. The NODA general membership meetings in September and October will now present you with two more opportunities to purchase tickets, and you are urged to do so. You may also contact Ken Schott (451-2491) or Tom Giacona (813-6513).

A time to reflect

A time to reflect gives you the opportunity to celebrate your accomplishments, re-evaluate your goals and appreciate the avenues necessary to attain the long term successes you desire on a personal, professional and financial level.

Whether you're just starting out in your career or a more seasoned professional, the insurance choices you make to protect your family and your practice can have a major impact on the outcome of your achievements.

The insurance professionals at Robert Ellis & Associates can assist you in reflecting and reviewing your insurance needs. Together with the outstanding portfolio of programs endorsed by your LDA, we're here to help you safeguard your family and your practice now. For additional information on any of the LDA programs, simply call:
